

Every employee who reports sick (AO) via MiSVb Employee or by phone appears in the "Sick Leave Summary" list that is available in the MiSVb employer portal.

This information is available one day after the employee reports sick (AO) to SVb. This also applies to the sick leave period that is registered while the employee is on sick leave.

## Guide

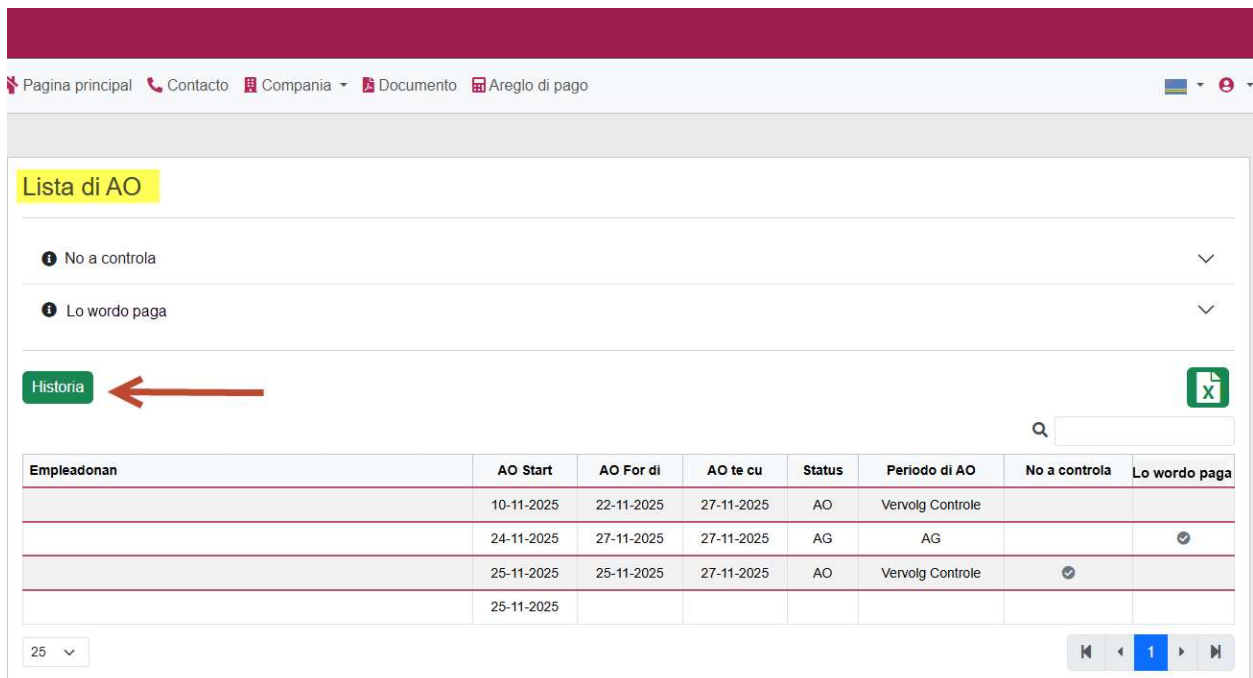

In the MiSVb portal you can view the "Sick Leave Summary" under the "Company" menu.

The sick leave summary consists of two parts:

### 1 Sick Leave List

In the sick leave list you can see all sick leave reports (AO) from all sick leave periods that have been registered for each employee. The information is visible until the end date of the period.

## 🔍 Sick Leave History

The Sick Leave History contains all information about employees who reported sick up to 10 years ago.
